

During times of Ill Health

If you become ill during your time with us, we won't
Be able to give you a pill to cure everything, or
Just feed you grapes in the Hope you'll improve, or
We won't be able to bed bath you ourselves, and
We certainly wouldn't send you out to hospital unless necessary, BUT
What we can and will do is Get you Professional Support as soon as we can,
Give you a Healthy Diet of simple foods that are appetising and easy to eat,
Arrange for a Carer to come in and help with All your Personal Needs and
Finally we'll support you through it all while you **stay with us at home**

Now doesn't that sound like the Support you would like ?
